This pharmacy is providing necessary vaccines to you in a safe and convenient setting in order to promote adherence to current immunization guidelines recommended by the CDC and ACIP. It does not take the place of an ongoing relationship with your primary care provider to address ongoing medical issues and other types of preventive care. We will be providing the designated physician or primary care provider (as listed below) with records of the vaccine(s) administered here so that your medical records may be complete, but be sure to take your personal record with you to your next appointment as well. Please review the statement below confirming your consent for vaccination and provide the information requested. "I have read, or had explained to me, the Vaccine Information Statement for the appropriate vaccine(s). I understand the risks and benefits and have had sufficient time to thoughtfully consider whether to accept or decline this vaccine. I have been provided an opportunity to ask questions, which have been answered to my satisfaction. I wish to receive the appropriate vaccine(s), and I am in no way being unduly influenced, coerced, or otherwise forced to receive this vaccine, and hereby give consent for My Pharmacy to administer the vaccine(s)." I further understand that the requested vaccine may not be approved by the FDA and may be an investigational medical product and/or is being made available through an Emergency Use Authorization (EUA). EUA means the vaccine is being made available without FDA approval due to a public health emergency. I understand that because the provided vaccine may be investigational in nature and/or may be available through an EUA, this means that it may not have undergone rigorous scientific evaluation by the FDA. I acknowledge that the manufacturer of the vaccine, the FDA, my doctor, the individual administering the vaccine, and any other covered person assisting in providing me access to this vaccine CANNOT be taken to court for money damages related to me receiving this vaccine, including for any injuries, or any other type of loss, such as (i) death; (ii) physical, mental, or emotional injury, illness, disability, or condition; (iii) fear of such injury, including medical monitoring costs; or (iv) loss of or damage to property, including business interruption loss.
